

# CRAFTING the Past

## EMPOWERING COMMUNITIES THROUGH CREATIVE WRITING, VISUAL NARRATIVES, MEMORY, AND PLACE-MAKING

Crafting the Past will deliver tailored arts-based workshops in creative writing and visual narratives for deindustrialised communities. These workshops aim to empower participants to share memories and cultural heritage through creative means, and to bridge academia and policymakers through creative exchanges, fostering evidence-based policymaking.

### Share Your Memories

We're providing tools and workshops to help you creatively express your experiences and stories of Sheffield's industrial past.

01

### Diverse Voices Matter

Help us explore how gender, age, and background shape our connection to Sheffield's industrial heritage. Your voice is key!

02

### Reclaiming Narratives

We'll examine how historical accounts impact how we engage with Sheffield's industrial heritage. Let's explore a more inclusive story.

03

### Shaping the Future

You will contribute to good practices of heritage making in Sheffield. Be part of the change!

04
